Safe/Not Safe Cards

Directions for use:

Print, laminate, and cut apart.

Ideas for use:

Show child each card and ask them the questions.

Explain how one person can use something, but others cannot and why.

Examples:

A mommy can use a curling iron, but a little girl cannot, because she might get burned.

A little girl can play a board game, but a baby cannot, because the baby might choke on the pieces.

OR

Have the child choose cards and answer the questions explaining why it's safe or not safe.

After you go through the cards you could think of other things that are safe and not safe.

Ask your child to reflect on other things throughout your home or classroom.
